

Table 1: Replication comparison for Telyukova (2013), Table 1

Source	Statistic	Borrow			Borrow and save			Save		
		Paper	Rep.	Diff.	Paper	Rep.	Diff.	Paper	Rep.	Diff.
SCF 2001	Puzzle size (%)	5.0	4.9	-0.1	27.0	26.8	-0.2	68.0	68.3	0.3
SCF 2001	Credit-card interest rate (%)	14.8	16.0	1.2	13.7	13.7	-0.0	9.8	9.3	-0.5
CEX 2001	Puzzle size (%)	7.0	7.3	0.3	29.0	29.5	0.5	64.0	63.1	-0.9

Notes: Entries are percentages. Diff. is Replication minus Paper, in percentage points. Credit-card interest rates are reported only for the SCF row because the CEX row in the paper reports puzzle-size shares only. The CEX replication infers the first interview in 2000Q2–2001Q1, imposes age 25–64 throughout the observed panel, retains topcoded liquid assets, and excludes fifth-interview-only panels.

Table 2: Replication comparison for Telyukova (2013), Table 2

Characteristic	Borrow			Borrow and save			Save			Population		
	Paper	Rep.	Diff.	Paper	Rep.	Diff.	Paper	Rep.	Diff.	Paper	Rep.	Diff.
Race: white	70.0	70.6	0.6	78.0	79.8	1.8	74.0	74.2	0.2	75.0	75.5	0.5
Marital status: married	48.0	48.0	-0.0	62.0	62.5	0.5	58.0	56.6	-1.4	59.0	57.8	-1.2
Have dependent children	45.0	42.5	-2.5	41.0	43.8	2.8	39.0	37.1	-1.9	40.0	39.2	-0.8
Head works full-time	76.0	74.7	-1.3	85.0	89.8	4.8	80.0	78.0	-2.0	81.0	81.0	-0.0
Head white-collar/prof.	48.0	50.0	2.0	61.0	66.9	5.9	58.0	57.6	-0.4	58.0	59.7	1.7
Education: less than HS	13.0	13.7	0.7	5.0	4.2	-0.8	13.0	14.9	1.9	11.0	12.0	1.0
HS/some college	73.0	73.2	0.2	61.0	63.7	2.7	51.0	52.6	1.6	55.0	56.6	1.6
College degree or more	14.0	13.1	-0.9	33.0	32.1	-0.9	36.0	32.5	-3.5	34.0	31.4	-2.6

Notes: Entries are percentages. Diff. is Replication minus Paper, in percentage points. The population column corresponds to the paper’s “Share in population” column.
